Lesson 4: Structure and Function of Organisms

How body parts help living
things move, grow, get food,
and stay safe

Let's Explore!

Have you ever wondered...

Why does a bird have wings?

Why does a plant have roots?

Different structures have different functions.

Animal Body Parts & Their Jobs

LEGS

Help animals move

WINGS

Help some animals fly

BEAK

Helps birds obtain food

FUR

Protects some animals

SHELL

Protects some animals

FINS

Help fish move in water

Plant Parts & Their Jobs

STEM

Supports + moves
water and nutrients

ROOTS

Anchor + get water and
nutrients

FLOWERS

Help reproduction

LEAVES

Help make food

FRUITS

Protect and spread
seeds

WATCH • PAUSE • EXPLAIN

How Plant Parts Work

**Watch how roots,
stem, and leaves
help a plant
survive and grow!**

WATCH • SPOT THE FUNCTION

How Animals Use Their Body Parts

MOVE

and

GET FOOD

Can you point to the body part doing the job?

SAY IT ALOUD OR DRAW LINES

Match the Part!

Match each part to its function.

ROOTS

LEAVES

WINGS

BEAK

STEM

A. Makes food

B. Anchors plant + gets water

C. Helps some animals fly

D. Helps birds get food

E. Supports the plant

CHOOSE THE BEST ANSWER

Quick Check

1. Which animal part helps a bird obtain food?

A. Beak B. Tail C. Wing D. Foot

2. Which plant part helps anchor the plant?

A. Flower B. Root C. Fruit D. Leaf

3. Which plant part helps make food?

A. Leaf B. Root C. Flower D. Fruit

4. What is one function of the stem?

A. Support the plant B. Help birds fly

C. Protect animals D. Catch insects

5. Why do animals have different body parts?

A. To survive and meet their needs

B. Decoration only C. No function

D. Stop growth

GREAT THINKING!
Answer Key

1 A • Beak

2 B • Root

3 A • Leaf

4 A • Support the
plant

5 A • Body parts
help animals
survive and meet
their needs

STRUCTURE = PART • FUNCTION = JOB

Big Ideas to Remember

ANIMALS

Body parts help animals move, stay protected, and get what they need.

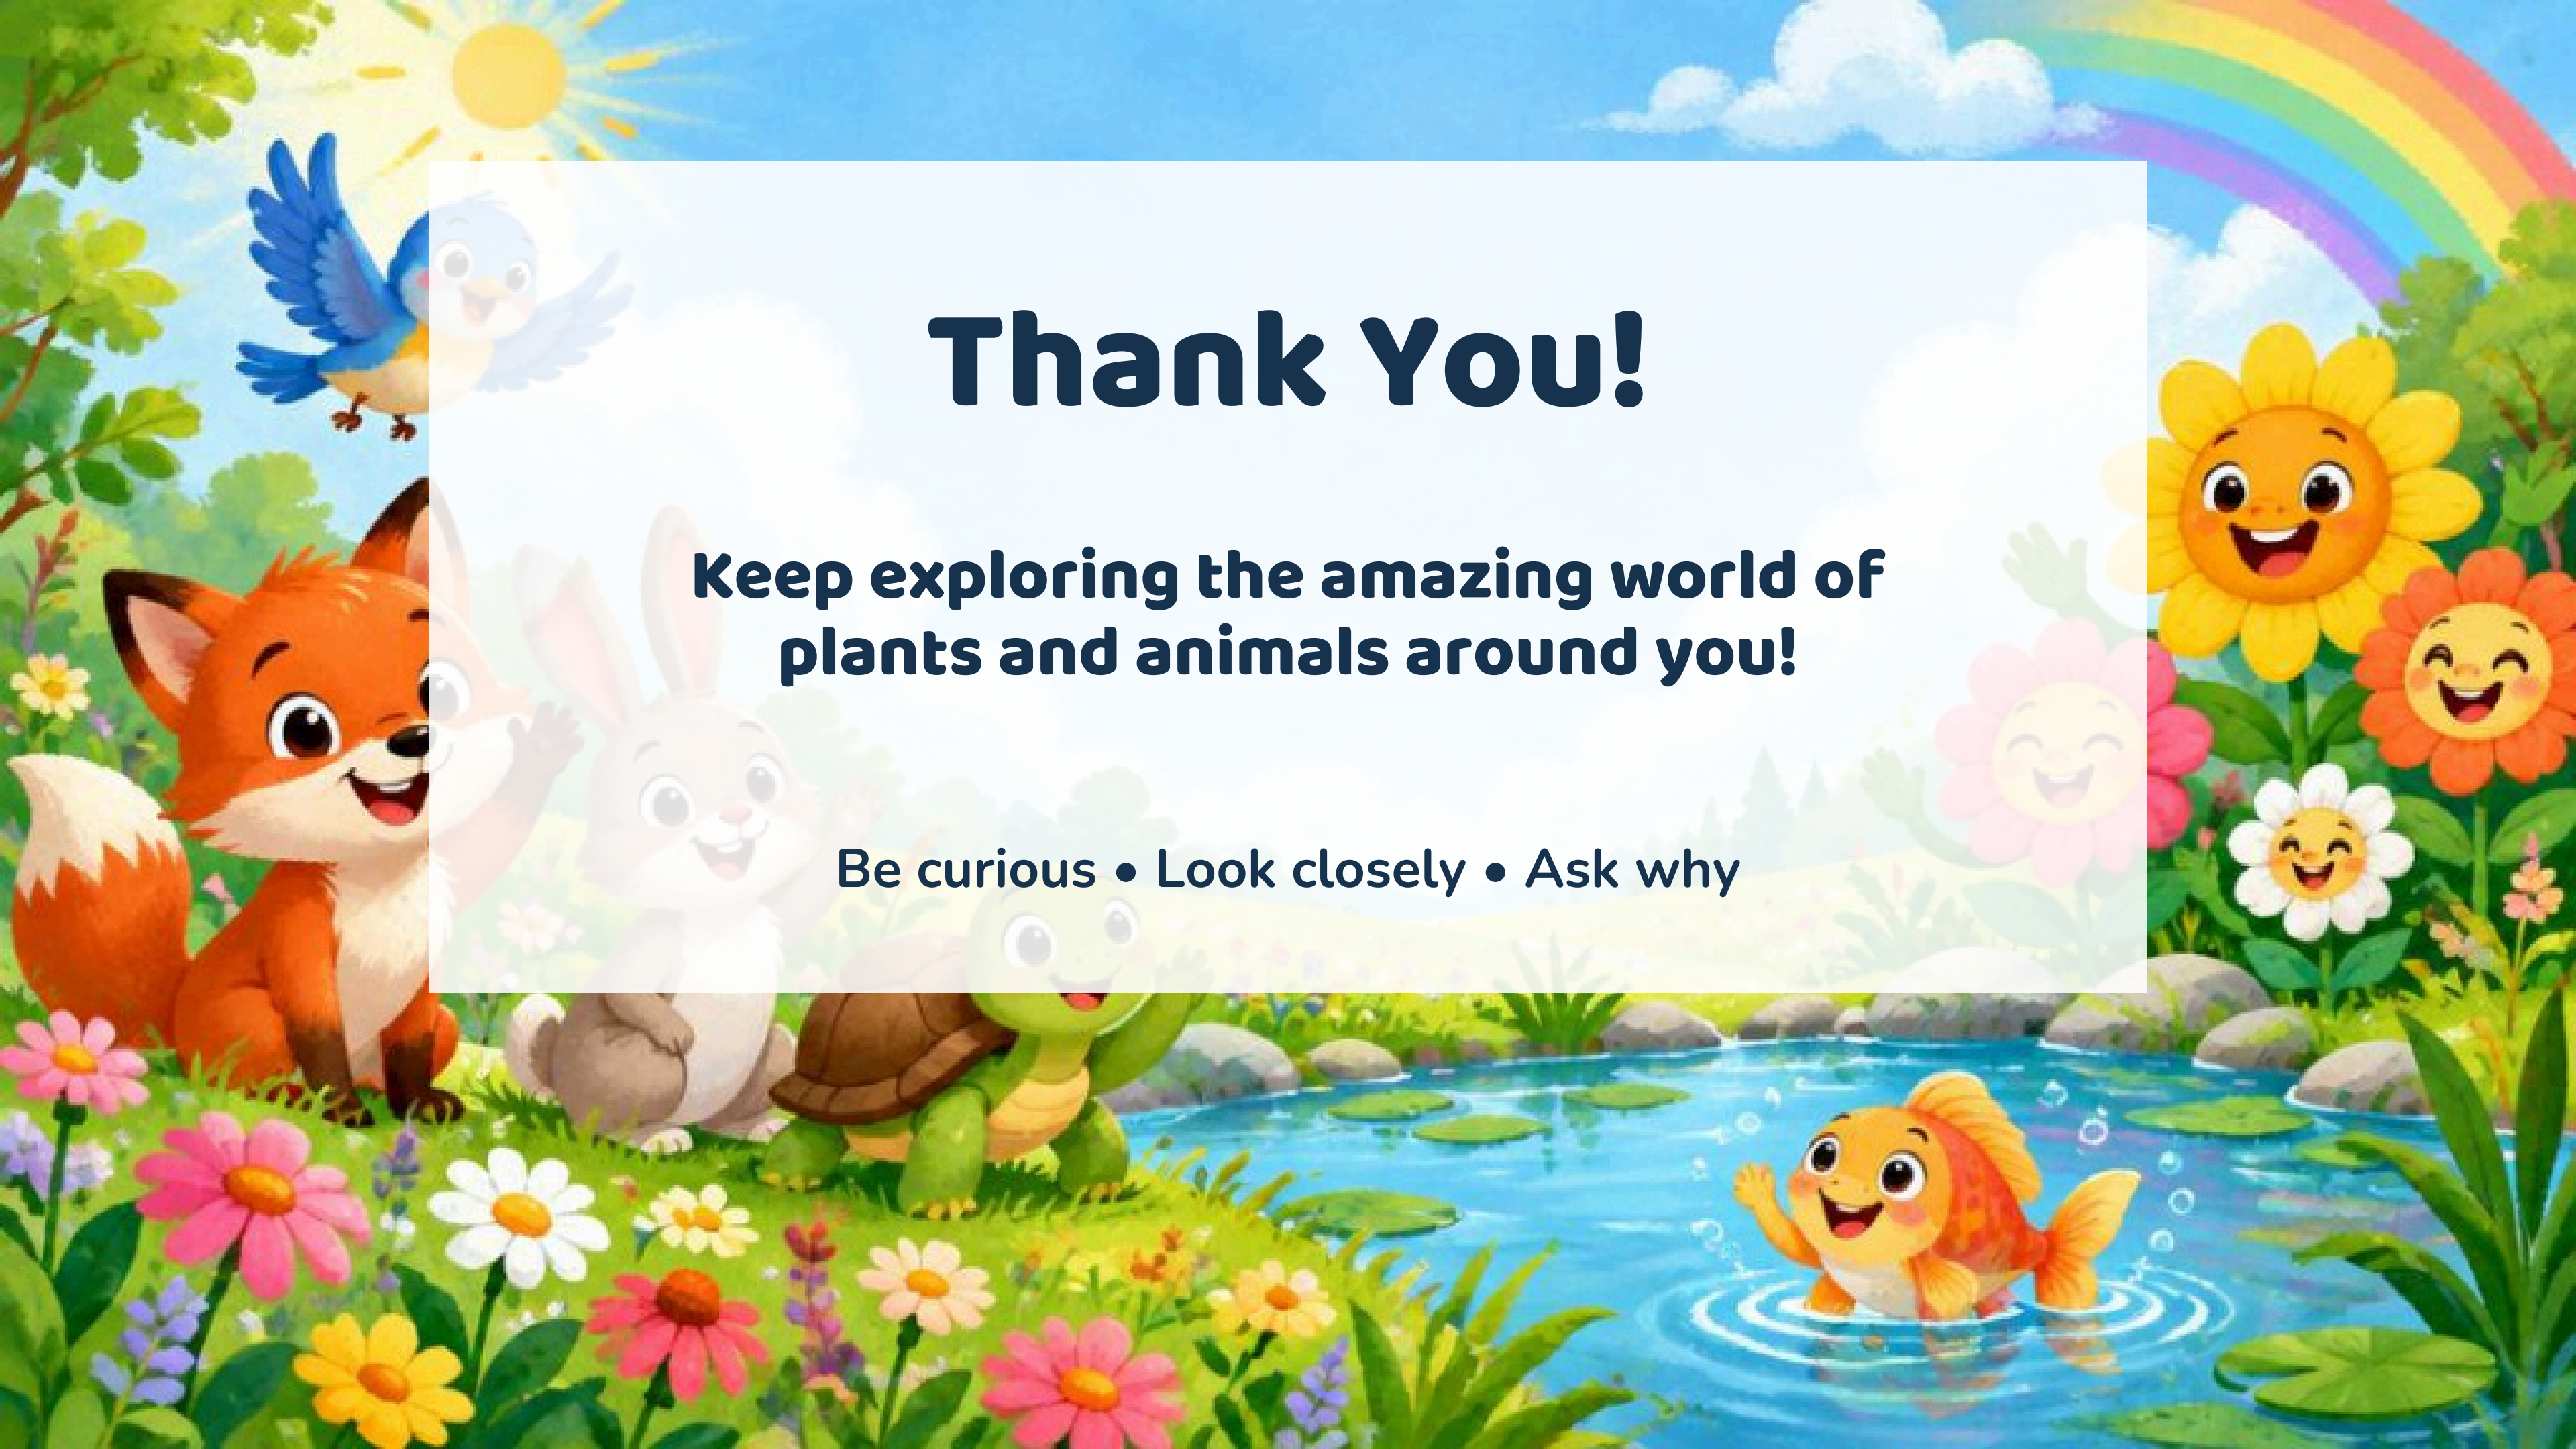

PLANTS

Roots, stems, leaves, flowers, and fruits each have important jobs.

SURVIVAL

Structures help living things survive, grow, and reproduce.

Every part has a purpose!

Thank You!

**Keep exploring the amazing world of
plants and animals around you!**
