

Animals and the Food They Eat

LEARNING COMPETENCIES

The learners can:

- Classify animals according to what they eat as **herbivores, carnivores, and omnivores.**

Let's Explore

Animals eat different kinds of food. Let's find out what these three animals like to munch!

Cow

What does a cow eat?

Lion

What about a lion?

Chicken

What does a chicken eat?

What Do Animals Eat?

Animals need food for energy, growth, and survival. Different animals eat different things.

Plants

Grass, leaves, fruits,
seeds

Animals

Fish, insects, small
animals

Both

A mix of plants and
animals

Herbivores

Herbivores are animals that mainly eat plants.

MAIN DIET

HERBIVORES

Examples of food:

Grass, leaves, fruits, and seeds — anything that grows from the ground.

Meet the Herbivores

A carabao eats grass and other plants, so it is a herbivore.

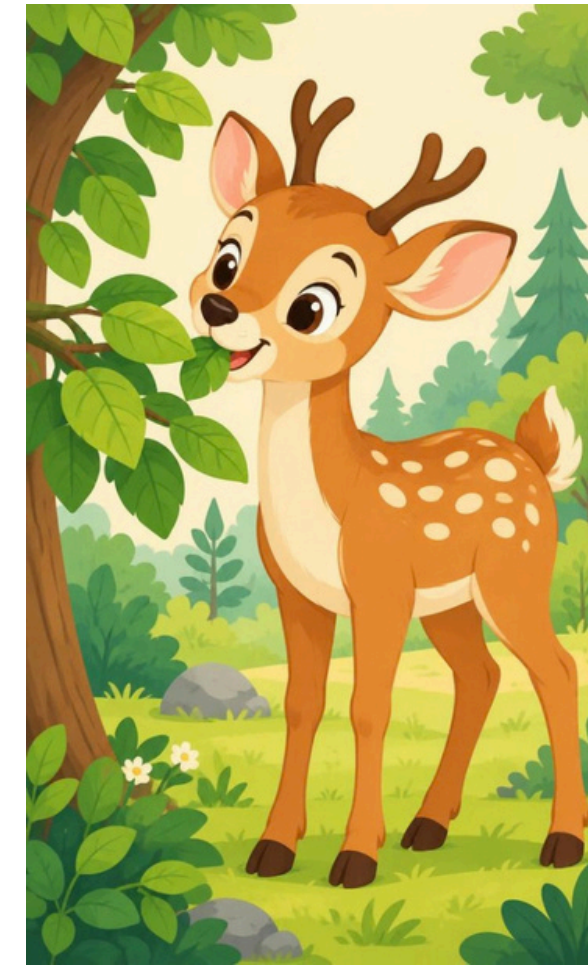

Cow

Carabao

Goat

Deer

Rabbit

Carnivores

Carnivores are animals that mainly eat other animals.

MAIN DIET

CARNIVORES

Examples of food:

Fish, insects, birds, and other small animals they catch.

Meet the Carnivores

An eagle may eat fish or other animals, so it is a carnivore.

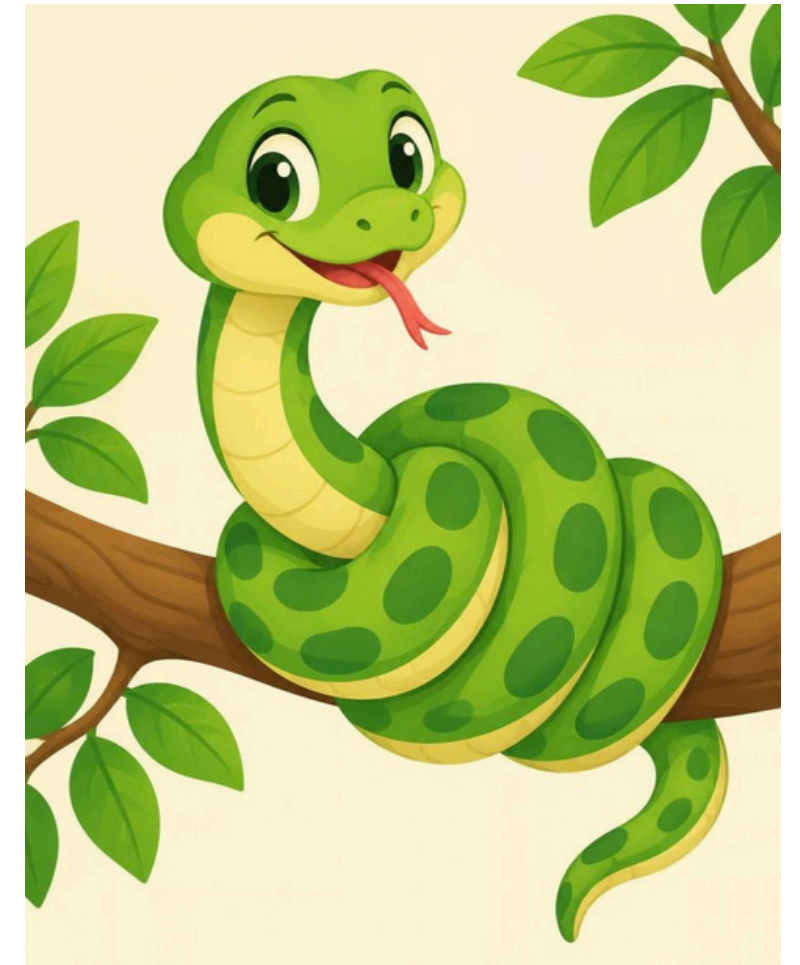

Eagle

Tiger

Lion

Snake

Omnivores

Omnivores are animals that eat both plants and animals.

MAIN DIET

OMNIVORES

Examples of food:

Grains, fruits, plants, and small animals like insects or worms.

Meet the Omnivores

A chicken eats grains, plants, and small animals, so it is an omnivore.

Chicken

Pig

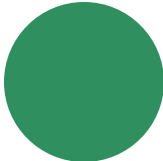

Bear

Human

Comparing the Three Groups

A side-by-side look at what each group eats and some familiar examples.

GROUP	WHAT THEY MAINLY EAT	EXAMPLES
 Herbivores	Plants	Cow, goat, carabao
 Carnivores	Other animals	Eagle, lion, snake
 Omnivores	Plants and animals	Chicken, pig, human

REMEMBER

Three Groups, One Big Idea

PLANTS + ANIMALS

Animals and Their Food

A quick reference table matching animals with their food and classification.

ANIMAL		FOOD	CLASSIFICATION
	Cow	Grass	Herbivore
	Goat	Leaves and grass	Herbivore
	Eagle	Fish and small animals	Carnivore
	Snake	Small animals	Carnivore
	Chicken	Grains and insects	Omnivore
	Pig	Plants and other foods	Omnivore

What Does It Eat?

Look at the animal and its food. Which group does it belong to?

1. Cow

Food: Grass

- ☐ Herbivore ☐ Carnivore
☐ Omnivore

Herbivore

2. Lion

Food: Meat

- ☐ Herbivore ☐ Carnivore
☐ Omnivore

Carnivore

3. Chicken

Food: Grains + Insects

- ☐ Herbivore ☐ Carnivore
☐ Omnivore

Omnivore

4. Goat

Food: Leaves

- ☐ Herbivore ☐ Carnivore
☐ Omnivore

Herbivore

5. Eagle

Food: Fish

- ☐ Herbivore ☐ Carnivore
☐ Omnivore

Carnivore

6. Pig

Food: Plants + Foods

- ☐ Herbivore ☐ Carnivore
☐ Omnivore

Omnivore

Classify the Animal

Drag each animal into the correct group. Which one belongs where?

HERBIVORE

Eagle

Snake

Chicken

CARNIVORE

Cow

Goat

Human

OMNIVORE

Carabao

Pig

Lion

Check Your Understanding

Choose the best answer for each question.

1. What do herbivores mainly eat?

A. Plants B. Meat C. Both

2. Which animal is a carnivore?

A. Cow B. Pig C. Eagle

3. Which animal is an omnivore?

A. Chicken B. Goat C. Lion

4. A goat mainly eats grass and leaves. What type is it?

A. Carnivore B. Herbivore C. Omnivore

5. What do omnivores eat?

A. Only plants B. Only animals C. Both plants and animals

ANSWER KEY

Assessment Answers

For teacher reference or student self-check.

Q1

A

Q2

C

Q3

A

Q4

B

Q5

C

Key Takeaways

Great job! Here's what we learned in this lesson.

1

Fuel for Life

Animals need food for energy, growth, and survival.

2

Herbivores

Mainly eat plants — like cows, goats, and rabbits.

3

Carnivores

Mainly eat other animals — like lions, eagles, snakes.

4

Omnivores

Eat both plants and animals — like chickens, pigs, humans.

Now you can tell which animals are herbivores, carnivores, or omnivores! 🎉

THANK YOU!
